Braiding Rugs: A Storey Country Wisdom Bulletin A-03

Synopsis

Braided rugs are like family quilts – each strip of cloth comes from a cast-off garment and tells a story all its own. Piecing the rug together is an act of weaving family memories into a useful heirloom you'll treasure forever. Nancy Bubel covers every step of the simple process, from planning the perfect size, shape, and color scheme to cutting your cloth strips, braiding them together, and finishing off your rug.Â Â Â

Customer Reviews

I ordered this publication because I was interested in making my own area floor rug using my own materials and colors, etc. This publication tells you how to braid your material, and then how to join into a shape to make a rug. It was a surprise to me that you can actually use the rug as you are making the rug....an idea that never occurred to me, but one that makes sense, especially when it gets very large. I enjoyed the book. Glad I purchased. Denise in Montana

Short, simple, to the point and informative. I can't imagine you need much more information. Not full of fluff like most craft books.

I am very happy with the information in this book. I had done a little rug braiding on my own but just couldn't get it quite right. This book gave me the fine tuning I needed.

I was very pleased with this short but informative booklet. The instructions are clear and simple and the illustrations are just as helpful. It is definitely the book to have if you are just starting out with rug braiding.

Braiding Rug: A Storey Country Wisdom is full of expertise and just basic needed knowledge for rug braiding. The book was in excellent condition and came sooner than the estimated time.

I have wanted to learn how to do braided rugs. I was given a large box of assorted material from an elderly lady that used to sew. The material is old fashioned for making anything but it would be great for making braided rugs. I can't wait to get started. This is a great book and well written and very easy to understand.

The Braided Rugs bulletin from Storey was helpful in getting me started making my own braided rugs. I was able to start almost immediately after reading this short how-to guide, and by following the advice am making good progress on my own braided rug.

This book provides very basic but clear explanations about how to make a braided rug and encourages the rewarding experience of expressively creating something by hand.
