Customer Reviews

I have a severe ribbon addiction, so I was really looking forward to this book. Eh. The book itself is lovely to look at, with excellent photos and nice paper. The projects, though, are not very original, and are things I've seen before. There are several ribbon embroidery projects. I was hoping for something really unique and original, but no luck. If you're a beginning crafter, this would probably be great, not just for the ideas, but for techniques. If you've been playing with ribbon for a while, skip it.
