Customer Reviews

Big easy to follow instructions and awesome photos. As a newbie I was able to finish 2 projects in less than a week by just following the photos and patterns. Success to the publisher and author! Thank you

This book has amazing and imaginative patterns inside. They range from simply easy to very intricate and difficult. But all of the patterns are well written and easy to understand. Each pattern is gorgeous in its own right. I absolutely love this book. If you love to makeyou homemade afghans this is the book for you.

I love the patterns in this book, But known errors make it hard to pick it up and crochet or knit any of them. There are 48 patterns, most corchet. Five afghans are knit. Twelve patterns are worked in Afghan crochet, making this book a must if you are a fan of that technique. I recommend checking ravelry for finished objects, there are some lovely ones.

I like every pattern in this book.Will come back to it again and again. The photos are lovely and its just full of great afagans

The only problem is finding time to make all of the. Great patterns in this book. A good source of ideas

All the afghans are beautiful and so easy to make.

Great patterns! Easy to read.
