Customer Reviews

There are NO books by this publisher that I do not LOVE. This is (as expected) exactly what I had hoped it would be. Besides having many good recipes (no "weird" ones), the series of books include some amazing "tips and good advice" at the bottom of each page/recipe...from variations to cooking hints and tips and other very useful information! I cannot recommend Gooseberry Patch cookbooks enough to anyone and everyone; these are the very best!

Are you stuck in a dinner-time rut? Casseroles don't have to be boring, and they aren't all your mom's tuna noodle casserole! Best Ever Casseroles has tons of easy, tasty ideas. The recipes in this book can be cooked in the oven or adapted for countertop cooking in a casserole slow cooker. I've loved everything I've made so far!

I bought this book largely because of the reviews it received. One of my family members does not eat cheese of any kind so this immediately eliminated many if not most of the recipes in this book. Additionally, many of the chicken recipes call for "canned" chicken. Really! I would not serve that to my pets let alone a family member. What happened to using fresh ingredients.

One of the best recipe books I have in my collection. I like the fact that it is dedicated to casseroles.

I love this book I look forward to making these recipes.

Gooseberry Patch cookbooks are one of my favorites.

This book does not work for use with the Crockpot casserole maker. It suggests different temperatures and times that can be accomplished on a slow cooker unit. I returned both the unit and the book.

Very Good. Needed more recipes for casserole crock pot
