Customer Reviews

The MBEs seem to be getting progressively more difficult, and an applicant who has practiced with NCBE released materials may notice that the NCBE is delving more and more into minutiae of law. With bar pass rates at an all-time low (see July 2014), the *Strategies and Tactics* are almost a must-have supplement to the standard bar prep program. First the not-so-great: NCBE, we all know, is adding Civ Pro to the February 2015 exam, and of course the *Strategies and Tactics* have no released NCBE material for this subject. New printings of the book come with a card that gives the buyer access to Emanuel's simulated FRCP questions. Keep in mind these are simulated, and I found these questions not as well-crafted as the actual MBE questions. Comparing these 50

simulated questions to the mere 10 questions actually sampled by NCBE shows that the MBE questions are much clearer. There is definitely a noticeable stylistic difference that doesn't make me feel confident in the Emanuel's simulated Civ Pro materials. I've relied on my Themis California materials for Civ Pro, which I've found to be much more stylistically similar to the 10 released sample questions. Now the good. The tips at the beginning of each chapter are practical and much clearer than anything else I've seen. The Strategies and Tactics also zero-in on those tricky, often-overlooked subtopics that trip applicants up on the real thing (e.g., title insurance in Real Property disputes). On the whole, it seems like these questions are well-selected to give the student a realistic idea of the breadth of testable issues.
