This is a great book to get you started with Evernote. It's easy to understand, and a quick read. Get it.

I had joined Evernote a while ago, but never used it. Just started into using it with the help of this book. So far - so good. It's what I expected.

This book lives up to the consistent quality that the "Dummies Books" have been known for.

Extremely helpful.

The print quality was poor! I have a hard time reading some pages.

great book...

why not free updates for an ever changing product?

Only 3 stars because I am still reading it, more as a reference book then anything else. But it is good book for rank beginners.
