Customer Reviews

Cute idea but very small. It's no bigger than the palm of my hand as you can see in the picture. The fill in the blanks are repeated a lot just worded a little different but other than that it is cute and I'm sure my boyfriend will love it.

This book would be a very thoughtful thing to give your beloved as a Valentine's Day, anniversary, or anytime gift. It is a bit small, and the prompts aren't too creative (they reminded me of "Mad Libs"), but you can change them around to be anything you want them to be. I agree with the reviewer who thought that they could make a much nicer version of this book on their own, but went with this one because it's convenient and just right for the job. There's nothing spectacular about this book, but your loved one will probably really appreciate it because it's a thoughtful gift from you.

This is a very nice product! It's fun to fill out, only took me an hour or two, and it's a great gift for your significant other! It's tiny, about the size of my hand, but a good product nonetheless. I recommend this!

This book is tiny and perfect for that someone special. It has 50 fill-in-the-blank pages that you can write in your responses. It's a really cute gift idea and a way to tell someone what you love about them.

I ended up giving it 4 stars because it's a really sweet idea. I needed a few extra little do-dats to go along with an anniversary gift. This was inexpensive, available through prime delivery (arrived promptly) and in the wheelhouse of what I was originally looking for. Also it looks exactly like the picture. It's cute. It's a little blase. It kind of regurgitated a few of the fill-in's a little... but it is cute. And if you are at all clever or crafty then this can easily be up-crafted into a better version of itself. I put a lot of thought into my answers. I'd suggest doing the same because of the pages being similar. So if you need to beef up a gift this would be a nice extra! And I saw that they offer these for not just "lovas" but also friends, sisters, etc. My other half was happy to read this.. he laughed a lot and I think it was a great add-on. I'm pleased with my purchase so.. Thumbs up

I had a very fun time filling in the blanks in this book for my husband for Valentine's Day. I think it would be perfect for anyone you love, even a child because it's completely personalizable (not a word but it should be!)

We tweaked the book a bit and divided the pages amongst the 5 grandchildren. We each took about 8 pages and ended up giving my Granny a gift she best described as "priceless" A great stocking stuffer for Christmas or birthday present for someone you love.

She loved it. I liked how the phrases setup you up. For improvements, I would use thicker paper because the paper bleeds a little.
