ISBN-13: 978-0762440986

Product Dimensions: 1.2 x 5.8 x 8 inches

Shipping Weight: 1.8 pounds (View shipping rates and policies)

Average Customer Review: 4.0 out of 5 stars (See all reviews) (48 customer reviews)

Best Sellers Rank: #182,846 in Books (See Top 100 in Books) #31 in Books > Arts & Photography > Photography & Video > Lifestyle & Events > Lifestyle #58 in Books > Arts & Photography > Other Media > Body Art & Tattoo #184 in Books > Arts & Photography > Photography & Video > Collections, Catalogues & Exhibitions

Customer Reviews

The content of the book is quite good. The photos are all clear and the subjects interesting. The problem starts with the book itself. The binding is absolutely horrible. Pages started falling out after less than a day of normal, careful use. A few days later, the entire cover is barely hanging on. Buyer beware.

It's funny, when I grabbed the book to put next to my laptop so I can type the review, I flipped through pages and rediscovered just how great this book is and sure - there are tons of tattoo books out there, heck - there's tons of tattoo images we can all just Google to look at, but The Mammoth Book of Tattoo Art belongs in your collection. It's full of interesting, beautiful and unique tattoos. Some reviews really depend on your (the reader's) intentions in buying the book. However, for this book, it pretty much covers them all. If you're looking for tattoo ideas/inspirations - this is a great book with PAGES of beautiful tattoos! If you're looking for an art book with an emphasis (ok,

total focus) on tattoos - this is a great book with PAGES of beautiful tattoos! If you're looking for a gift for the tattoo enthusiast in your life - - this is a great book with PAGES of beautiful tattoos! I think you get where I'm going with this. This book really is a great book. The pictures are beautiful, the art is beautiful and one thing this book does that stands out amongst the rest is that it has "chapters" (several samples) from tattoo artists - so if you see something you LOVE and want it OR want THAT specific artist, it gives the artists information and a little bit of information on them. Not overly in your face, and not too little information. Great book, buy it and enjoy it.

Had the first book, was very satisfied, thought the second would be at least equal if not better: wrong. Tattoos are.. less spectacular than the ones on the first book, pictures are.. "flat", poor definition, and... most of all, the binding is really pitiful. I like books, treat them good, this one was messed up waaaaay before the end of the first reading. I shipped it back, hoping it was only an accident: wrong. The replacement was the same, pages falling apart after an hour, binding really cheap. Disappointing. On the other side.. the price is really low (perhaps do they wanna get rid of the lot..?? to get the binding situation addressed..???). So... for that price, I'm ok, but... far from being fully satisfied.

I received this book and within 2 days the binding fell apart so I returned it with no hassel and the replacement book did the same thing. The images are nice but the binding is not.

The binding is horrible, point blank period. Like my book has been falling apart since I got it. The pictures however are quite lovely. I do wish however there was more diversity among the tattoos, however that's just me.

The art displayed is pretty great but the binding started to fall apart almost immediately. About a third of the pages fell out in one chunk before I even finished looking through it my first time. I'm hoping I won't lose too many pages over time, since the art displayed is awesome. I guess I'll have to bust out the glue gun and hope for the best. Just don't plan on being able to resale this book, it won't hold together long enough for that to happen. :(

good tattoo work. Some of it is stupid but for the most part it is a document of excellent work. like the other reviews, the binding sux. actually sux is over rating it. the entire binding fell apart right off the jump, the first time looking thru it, and I haven't even looked thru the whole book yet. but for the print

and pics it is worth the 12 bux. just wants to fall apart on the shelf. so it is frail and not something you can just set out for ppl to look at. it will be in pieces b4 u know it. good inspiration for artists, just a mess in the making.

If only it were longer. Even with the immense quantity of images I still wanted more. There is an astounding quantity of Japanese style tattoos out there. It may be just the current trend, or it may show a bias, nevertheless this book does a terrific job at showing it. Great, great work!
